INTERNATIONAL COLLEGE

BRING LOCAL

TO

GLOBAL

POWER OF VISION

10th Year establishment of the International College has proved that the college is well known nationally and internationally by many educational institutions and business sectors. Moreover, the International Curriculums offered by the International College are responsive to students for their bright future in a fast-changing world.

On behalf of Chiang Mai Rajabhat University, I would like to thank all of you for your contribution and support, and send best wishes for a very successful 10th anniversary celebration.

Associate Professor Dr. Prapan Thammachai
Acting President of Chiang Mai Rajabhat University

Refer to the Royal Guidance of His Majesty the King Bhumibol Adulyadej about the evolution of educational reform in Thailand which was stated that "...teachers have to love students and students love teachers, teachers have to cultivate students to be a kindhearted and sympathetic one and guide them to realize the value of unity...", Chiang Mai Rajabhat University has been remaining to serve the Royal Guidance by cultivating graduates in education which is the vision of CMRU to Thailand. Apart from academic and professional skills to CMRU students, the curriculums also provide soft skills that are necessary for them to live their lives such as being patient and responsible, volunteering and time management.

International College aims to create the identity for students in order to be able to work as a team and live in the real world. Students are expected to be excellent in various skills such as languages, communication, public speaking, socializing, leadership, conflict solving, administrative management and information technology.

On this occasion of International College 10th Anniversary; 10th year of keeping moving forwards to being excellent, I would like to congratulate the faculty on reaching its accomplishment during 10 years past and I strongly believe that the college will definitely be developed by the professional faculty members and administrators.

Dr. Narong Tananuwat
Chairman of Advisory Committee Members

On behalf of an advisory committee member, International College, Chiang Mai Rajabhat University, I am so grateful to be part of the growth of the International College. I would like to express my gratitude to all administrators and faculty members for your delicate effort in order to improve and develop the organization continually. In addition, teaching and learning are not only highly competitive in the changing world, technology equipment for classroom is another major factor that stimulates learning ability. As a result, the programs have been doing their main mission by revising their curriculums to develop courses to be updated in a disruptive world so that the graduates can be cultivated and qualified enough to serve the labor market's needs.

Mr. Soraphob Chueadamrong
Advisory Committee Member

I would like to congratulate the International College on the 10th Anniversary. As I am one of the administrative members, I am delighted to see the excellent progress during the past ten years in terms of number of students both residence and non-residence, teaching profession, administrative management and educational facilities which are inferred that the International College has achieved the entire goal.

On this occasion, I would like to offer my best wishes to the International College for the great success in improving and developing our educational institution to become one of the greatest faculties in Chiang Mai Rajabhat University and being widely well-known.

Mr. Anucha Damrongmanee
Advisory Committee Member

International College, Chaing Mai Rajabhat University is an educational center where lecturers truly instruct and cultivate highly qualified graduates internationally based on various factors such as the updated curriculums and expert scholars and specialists. I am glad and proud of being part in sharing, advising and utilizing my previous experiences to develop the Aviation Business Management Program. On this special occasion as 10-years of high quality, I feel a deep sense of gratitude to the administrators and faculty members for their hard work and passion. May a success in continuing develop the International College and keep producing higher and higher quality graduates in a variety of career sectors and industries.

Mr. Pisit Hongsakornprasert
Director of Learning Center for Excellence in Aviation

POWER OF VISION

Chiang Mai Rajabhat University consented to the establishment of "International College" on the first of December, 2009 in order to be responsible for educational management of international program as well as create cooperation networks with educational institutions and universities overseas in response to the strategic policies of the university in order to be excellent in language and the government policies in encouraging Thailand to be the educational center in Asia again.

In 2019, it was the 10th year of establishing International College, Chiang Mai Rajabhat University where has been accepted as a university creating quality graduates and responding to the needs of local community and society at both national and international levels.

Assistant Professor Dr. Anuwat Srikaew
Dean of International College

Celebrating 10th Anniversary of the International College in 2019

Facilities

Study Room

The study room is available for self-study and recreation. The room provides books with specific knowledge as well as outside reading in both Thai and English.

Smart Classroom

Smart classrooms are supportive of modern learning and equipped with a smartboard, a computer and audio-visual equipment inside in order to fully encourage students' learning potential. The smart classrooms are also available for teachers to create active learning and online active learning.

Smart Sound Lab

The smart sound lab is supportive of language acquisition and language tests. Inside, computers and headphones are provided.

CMRU Learning Center for Excellence in Aviation

The CMRU Learning Center for Excellence in Aviation is an operating room which provides airline service and on-board service trainings for students in aviation business management program (international program) of Chiang Mai Rajabhat University. This is the first and the only complete aviation learning center in Chiang Mai province. CMRU Airline consists of a cabin crew simulator of Airbus A350XWD equipped with modern operating equipment used for virtual teaching in various situations of in-flight services. Also, there is a learning section in a passenger terminal simulator with realistic surroundings of an airport such as check-in counters and classrooms for learning ground services.

Bring Us to the Success

Philosophy

Qualified and successful communicators must completely master the English language, have considerable expertise in communication skills in business contexts, possess mastery of international cultures and practice professional ethics.

Significance

The Bachelor of Arts program in English for International Communication aims to have the students develop English communication knowledge and skills, possess morality and professional ethics, and develop them to be the desirable graduates for the society and labor market in both national and international levels. Besides, the curriculum encourages the students to learn in both theoretical and practical aspects by providing field experience training in government and non-government organizations in order to lay the foundation for the qualified graduates according to national strategic plans on development and potential enhancement of human resources to respond to the 21st Century transitions.

I want to say I wasn't disappointed choosing to study this major at IC CMRU. I have great teachers, nice friends and supportive environment. I have met nice teachers who give advice and knowledge, get to know friends who have helped each other. Luckily, I have been given opportunities to join student exchange programs in China and Indonesia which are unforgettable memories. From year 1 until year 4, I have been very happy and felt grateful and thankful for everything that brings me here to meet everyone.

Miss Wasinee Duangjaisak

Having been studying in EIC, I feel that I've developed my language competency up to another level, especially in speaking English with high accuracy in both grammar and pronunciation. Besides, the warm community of EIC makes me feel at home, where not much adjustment is needed. Moreover, the lecturers are kind and helpful. They are always available when I need consultation.

Mr. Sunthon Na Nongpham

EIC

Bachelor of Arts Program in
English for International Communication
(International Program)

BC

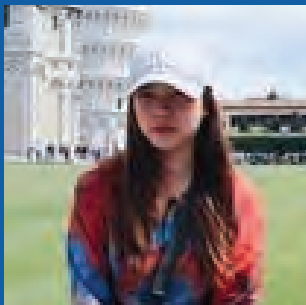

Bachelor of Arts Program in
Business Chinese

Bachelor of Arts program in Business Chinese aims to have the students develop their competence in Chinese for business. Learning and teaching activities are conducted to emphasize theoretical knowledge and practice in the real situation. This is to make the students capable of setting up a business or working in any organizations in Thailand and in foreign countries. In addition, to complete the degree, each student is required to study in China for 1 academic year.

Jobs Opportunity

- Working in government sectors, Department of Export Promotion, Department of International Trade Promotion, Department of Trade Negotiations, Ministry of Foreign Affairs, Ministry of Commerce, Ministry of Industry, The Board of Investment of Thailand, Bank of Thailand, Export-Import Bank of Thailand, Airports of Thailand.
- Working in private sectors such as export-import companies, international trades companies, logistics entrepreneurs, airlines, tourism agencies and hotels.
- Working in private business such as exports and imports, logistics agencies and so forth.

Having been studying in Bachelor of Arts Program in Business Chinese, CMRU International College, I have been tremendously impressed by the lecturers, seniors and juniors. The lecturers are extremely willing to teach and transfer knowledge to students. In addition, notwithstanding slight controversies, seniors and juniors live well together. These all make me feel enormously impressed with this institute "International College, Chiang Mai Rajabhat University"

Miss Chanikan Saetang

I am an overseas Chinese born in Thailand. I had been studying Thai, Chinese and English to the level of communication. However, when I started my education in International College, Business Chinese Program, I realized the languages I had studied before were extremely useful. I was really satisfied with the program I was studying because there was a lot of contents of my interest. What I mentioned earlier are all the impression I had with this major. Besides, there was still plenty of memorable impression in this college whether they are the society or the lecturers. In social terms, it was so warm and harmonious. In order to study in this college, one needed to pass many steps of selection. What made me feel warm started from the process of admission that did not consider only the test scores but the students' personal interests. This made me feel extremely impressed.

Mr. Wanchai Loongtoon

The Bachelor of Arts Program in Thai for Business Communication (International program) is a program offered to international students or those who do not use Thai as their first language. Students will know Thai language skills from basic to advanced level along with understanding Thai culture so they can communicate effectively and understand ethics and morality. In addition, the program also integrates Thai language with business knowledge so that students can apply their knowledge for their career in business appropriately.

Possible Careers after Graduation

- Employees in tourism and hospitality businesses in Thailand and Thai organization overseas
- Translator, interpreter or public relations personnel

I am lucky and happy to study Thai language at International College, Chiang Mai Rajabhat University. Studying Thai language here allows me to learn language and cultures as well as a chance to meet Thai friends.

Mr. Zhang Zhiyao

International College provides students with the opportunities to develop their knowledge, mind as well as to learn Thai culture and perform their talents.

Miss Yu Guangxiang

TBC

Bachelor of Arts Program in
Thai for Business Communication
(International Program)

IBM

Bachelor of Business Administration Program in
International Business Management
(International Program)

International Business Management, B.B.A. (International Program), aims to equip the students with knowledge in international management, fitting the changes of globalized world. The courses focus on economics, finance, banking, information technology, human resource management, international business management, and so on. All subjects are taught in English. Students are able to learn both theories and practice in order to apply their knowledge to their careers in the future.

Career Opportunities

- Working in governmental organizations, for example, the Department of Export Promotion, the Department of Foreign Trade, the Department of Trade Negotiations, the Ministry of Foreign Affairs, the Ministry of Industry, the Bank of Thailand, Airports of Thailand Public Company Limited, etc.
- Private organizations, for example, import/export companies, international trading companies, logistics companies, airlines, financial institutions, commercial banks, etc.
- Private business, including, import/export business, logistics, freight forwarders, etc.

For the time that I've studied here, the thing that I have touched the most is the attention I've received from the lecturers and faculty's staff. Everyone is ready to provide students with some advice and help them, even though it's not their business. I feel so lucky that I've got to study here.

Miss. Pornchanok Weeraburut

IBM lets me realize that studying the international business management at the International College is not as difficult as someone assumes, but it's not that easy either. If we open up our mind and learn, these things will surely lead us to success in business in the future.

Mr. Kuntaphat Techakham

This curriculum is a practical type; as a result, students are required to apply their theories studied in class to professional practices in real life within organizations or enterprises with considerable expertise in aviation industry. Students can integrate languages, services and professional knowledge and skills efficiency as the industry's need. This will definitely equip the graduates with full-effort potentials to work and to move forwards in the rapidly changing future.

Prominent point of the curriculum

- Students can study in real Aircraft atmosphere as we provide Aircraft Cabin Mock-up.
- This curriculum is a practical type, students are required to apply their theories studied in class to professional practices in real life within international organizations or enterprises.
- Communication skill is emphasized: At the College we study in English and our students are expected to study the 3rd language, for example Chinese, Korean, Arabic and French.
- The international college has signed an MOU with the Association of Civil Aviation and Tourism of Thailand (ACAAT) for planning future collaborations with aviation agencies, airlines, airports, air cargo and logistics agencies, and future tourism.

Studying Aviation Business Management, I have learned more about this industry. And this made me aware of the path that helps me to reach my goals, gives me discipline and makes me more responsible in everyday life. I have learned that we must be responsible for our duties and do our best.

Mr. Akrasak Prommin

I am an international student from China. This year is my third year in Thailand. I am studying at ICCMRU, majoring in Aviation Business Management. Since I entered the CMRU, I have begun to have a deeper understanding of Thailand and the culture and life of Thai people. Time flies. I'm a junior now, and I'm going to be a senior soon. I never thought that my college days were so fast. In retrospect, I can still remember the scene of entering the campus. There is no doubt that I love our college in my whole campus years. Here, I have met many good and sincere Thai friends, as well as foreign students from all over the world. Fortunately, I have met many patient and responsible teachers. I learned a lot here. This

knowledge is not only for academic education but also for moral and ideological education. This makes me feel more high-quality classroom teaching and experiment, international teaching concept and open thinking mode, which benefits me a lot. I also know how to become a better person. My life in school is my most beautiful memory. Here, I move from naivety to maturity, from ignorance to multi knowledge.

I am the first generation of Sat-Sun program of EIC, IC, CMRU. IC was my new home when I was in the 1st year. I got lots of precious memories from teachers and friends. Thanks to all teachers that I studied with. All of you gave me the knowledge and experience how to live and work in the reality life, which is very different from student life. All staff in IC dedicate themselves to establish the strongest foundation of the knowledge, curriculum and creative activities to students and the society. I'm so proud to be a student and alumni of IC. I wish my IC would stand firm for the next and next generation in order to produce the responsible population for Thailand. All my love and sincere.

Pol.L/Cpl. Rosalinda Phumphuang
EIC Alumni
Management Sub-Division, Immigration Technology Center

My impression toward GBM program is that it is a practical program which can be applied to business and work. I can implement the knowledge in my personal business since I was in 2nd year. I have applied the knowledge I gained from all courses. They enable me to participate in activities both inside and outside the university such as the Start-Up competition which could be qualified for Northern Digital Expo at Chiang Mai Hall, Airport Plaza. I could also start my own business called "CGALE English School". I am happy to be part of International College. I worked in many different roles while I was studying here, including, Vice President of IC Student Union and to be a good student for all the teachers. Additionally, I had a chance to be an exchange student in Taiwan. It was fun and wonderful for 4 years here. One of the most impressive moment in our International College is the listening, understanding and helping everyone. When I needed any kinds of assistance, I always had teachers, staff members and friends to support and offer me a good cooperation.

Chidchanok Klubrin

International College is my second home. It is not just for knowledge in the classroom but also life knowledge and being a good person in the society. Teachers, staff, as well as students belong to a warm family member.

Mr. Noppon Poti
BC Alumni
Head of Operations BNT Express

Since I came to study in International College, it made me improve and develop myself until I could make it to graduate. International College taught not only what in the class schedule but also how to do it in practice in order that the students are more skillful in both academics and additional activities. All of these things have transformed me from an insecure person to a man of confidence at present. I'm really thankful to International College, Chiang Mai Rajabhat University for creatively developing and producing qualified graduates to the society. I would like to express my heartfelt gratitude to all lecturers and personnel for not leaving any students behind. They always provided consultation no matter how serious the problem was. Thank you. I love you, International College, CMRU.

Miss Piyachat Shangleng
BC Alumni
Teacher, The Vachiralai Bee School

At first, I didn't think that I'd be able to get accepted in this major. However, being a student here makes me realize that Chinese is really important. The lecturers from each major, Thai or foreign, do not only teach in class, but also in other aspect of a student's life. The most impressive thing I find about this major is that the juniors have to study in China as exchange students. This experience is a great opportunity. Even when you start working, you don't get to travel to China that long anyway. I had Business Chinese major to thank everyone for all the knowledge that the IC have equipped me to these days.

Students

We won't solve anything if we're only willing to do the easiest. We've got to make hard choices and sacrifice in our own lives. I'm proud to be part of the development of the International College.

Mr. Jakkapob Intamood
EIC Student

Since I studied here, I've learned so many things. I've got many friends to help me. Not only that, the lecturers never neglect their students and always give advice when needed. This makes me feel at home, not a university. Now I'm a senior, I've had an opportunity to be in a job interview. I realize that everything that I've learned at the International College could certainly be used in real workplace. Most importantly, studying in Business Chinese major gave me an opportunity to be an exchange student abroad. It was one of my most precious experience that I've got from this major. Thank the International College and the Business Chinese major that both have taken care of me from my first day here.

Miss Phatcharin Lerdjid
BC Student

I'm proud to be part of this program. Both my teachers and friends are nice and caring. Whenever I face a problem, the teachers are always willing to help and give advice. Thank you for always looking after me and teaching me. I love you guys!

Miss Jularut Muangma
GBM Student

Miss Natthida Sompan
ABM Student

I believe that everyone has many things that they want to do, but not many succeed in that. Today, I made one of my dreams come true.

Everyday is like a new journey. Make it great and memorable.

Mr. Peerapon Kaeomongkhonphet
ABM Student

Since I've been studying here for about 4 years, I've seen my potential in my English skills. At first, I barely got to speak English in my daily life, but when I came here, I've had more chances to use English, and my English skills have eventually gotten better than before. Moreover, I get to have much more friends here, and I can improve myself in various kinds of skills such as interpersonal skills, technological skills, and so on. Studying here provides you much more than you think.

Mr. Pronpinit Pitakrasd
EIC Student

Since my first day here, the International College has provided me with so many good experiences, both in academic and extracurricular activities. I also feel the warmth from the lecturers and my friends. The Business Chinese program is designed to allow its students to study in China for an academic year so that they could learn Chinese and its context deeply. I'm happy to study and become part of this College.

I think I have gained new experience, new friends as well as opportunities for language exchange through my studies at Chiang Mai Rajabhat University. All lecturers are professional and helpful in every aspect.

Miss Vilay Keopaithoune
From Laos
TBC Student

I have been part of this faculty for over a year now and I have been witnessing a socially diverse environment. I consider being a part of this faculty as an advantage because we aren't just gaining knowledge from the course we are pursuing, but at the same time, we are also experiencing an atmosphere of cultural diversity simply when we have interaction with the students and professors coming from different national backgrounds.

Mr. Jahbez King Tejero
From Philippines
EIC Student

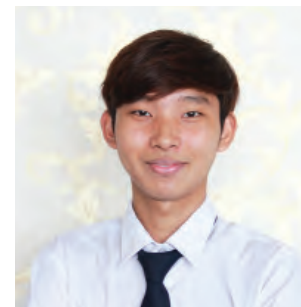

I feel like home even study abroad. All lecturers, classmates and even others treat me very well. Studying here does not only educate me, but also teach me how to be a good person.

Miss Chenxi Gan
From China
TBC Student

I have studied here for a year. All lecturers and friends well provide me hospitalities. Lecturers teach us to be good people and give us knowledge in language and culture. I therefore feel warmly welcomed to study at the International college.

Mr. Yilong Li
From China
TBC Student

In my opinion, I was not confident in using English when I entered college. I didn't think that I could speak English like this. Right now I can speak English. This is possible because my teachers help me and I am willing to do it. Finally, I'm happy with my department that I can communicate in English at anytime.

Mr. Myeongseong Kim
From South Korea
EIC Student

I enjoy my time studying at CMRU very much. The university has a great mix of subjects with a great integration of Thai culture and activities where I have the opportunity to meet local students and students from all over the world alike. The teachers are awesome and really involve with the progression of students education and social advancement.

Mr. Dean James Robertson
From Scotland
TBC Student

IC Program is one of the competitive program offered at CMRU. IC is an excellent college that provides competitive, punctual, and responsible students. In this particular program, you will get to experience many things such as personal interactions towards the students by having different kinds of activities that enhance the students' social skills. You will also get to learn and share your ideas and knowledge with the different teachers who educate and motivate the students nicely and precisely.

Mr. Argie Mendez
From Philippines
EIC Student

I feel that this is a good university; particularly education, studying and teachers. The teachers are good and also friendly. They always pay attention to students and always help students. As for me, I have never felt bad to study at the International College Chiang Mai Rajabhat University.

Mr. Sai Seng Aon
From Myanmar
GBM Student

Studying in CMRU so far has been exhilarating. Full of surprises! The teachers are great and even the university officials are very friendly and helpful. We have great friends. The university was very kind enough to provide me with a scholarship and I promise to do my best during my time here and happy 10th year Anniversary to our International College.

Mr. Dhendup Norbu Wangdi
From Bhutan
EIC Student

Studying in CMRU is a lot of fun. We get the opportunity to engage in a lot of interesting and new activities. We get to learn a lot of new things. CMRU assist us to excel in both academic and co-curricular activities. The people I have met so far were all kind and also Chiang Mai is so lively that it doesn't even give me a chance to miss my home. I pledge to be a responsible and helpful student.

Mr. Tenzin Chogyel Dorji
From Bhutan
GBM Student

Studying in CMRU has been fun and interesting. The staff and the students are both friendly and interesting. The study environment is healthy and the constant support from the administration makes it a whole lot better. The amount of time they put in to make our stay better deserves a whole lot of respect and gratitude I will work to the best of my ability and hope to enjoy the next four year truthfully.

Mr. Kinley Dorji
